Subject: Orchard Lane East Improvements

Dear Resident:

The City of Brooklyn Center's Capital Improvement Plan identifies a potential street improvement project in your neighborhood. A map of the proposed project area is pictured on the back of this letter. This project is tentatively scheduled for next year, 2024. A feasibility study will be undertaken to evaluate the need for the project and estimated cost of the streets and utilities improvements.

A survey crew with Bolton and Menk, Inc. will be in your neighborhood over the next several months collecting data for the feasibility study. The data will include road elevations, utility locations and property boundaries. The survey crew will also collect information on driveway grades and surrounding topography adjacent to the right-of-way to assist in the project analysis.

A geotechnical crew will also be in your neighborhood performing soil borings in the roadway.

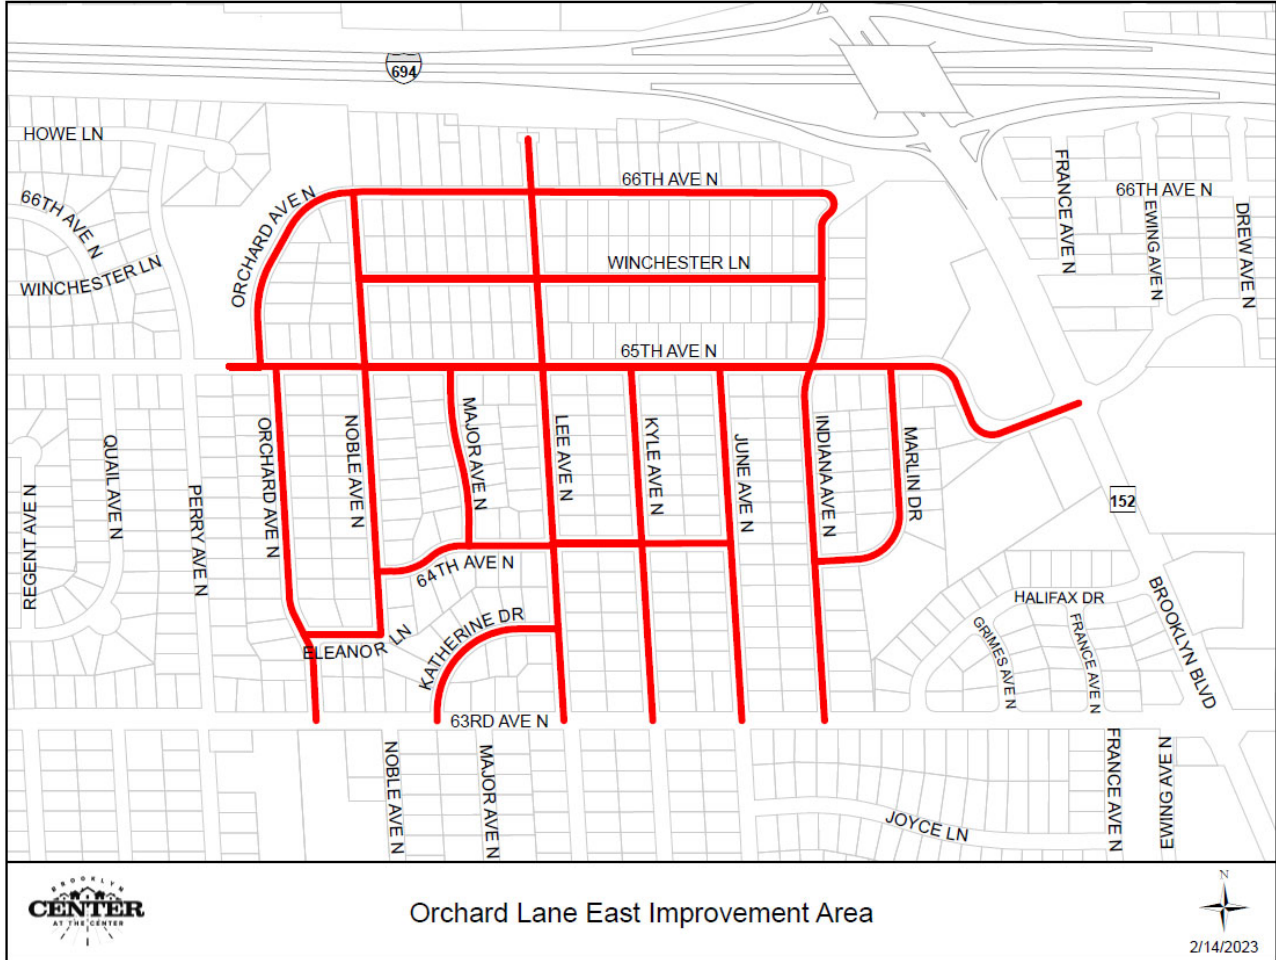

A meeting will be scheduled later this summer to gather additional information and solicit input from neighborhood residents. You will be notified in advance of this meeting.

For more information please visit the project website via the following link <https://bit.ly/3MblwQ1> or QR code on the back of this letter.

If you have any questions about the data collection or the feasibility study, please contact the Engineering Division at 763-569-3340 or publicworks@ci.brooklyn-center.mn.us.

Sincerely,

Public Works Department - Engineering
City of Brooklyn Center
