Goodbye Summer...Hello Fall

Landlords shall provide heat to units starting September 1st to May 31st per City Code, IPMC 602.3. Owners and Managers **must** provide a main heating source that is capable of providing temperatures of at least 68 degrees.

Requiring tenants to use the range, oven, space heaters, and other temporary heating devices/ sources is not an acceptable practice to achieve the minimum 68 degrees. The use of these devices can be dangerous causing skin burns and fires.
